MANUTENÇÃO | MANTENIMIENTO | ENTRETIEN | MAINTENANCE

Prevenir é o melhor
Coloque um capacho em frente à porta de casa para prevenir a entrada de sujidade de fora que possa entranhar no seu tapete/alcatifa. Tenha também em mente que num tapete escuro não se notará tanto a sujidade e manchas como num tapete claro.

Manutenção diária
Um programa de manutenção sistemática será suficiente para prolongar a vida útil da sua alcatifa. A base da manutenção dos seus tapetes/alcatifas é a aspiração.

Aspire regularmente
Para preservar a beleza dos seus tapetes por muito tempo, recomendamos que aspire toda a sua área, pelo menos, duas vezes por semana. Marcas e manchas de sujidade ligeiras, podem ser removidas com um produto de limpeza para tapetes. Leia as instruções de utilização com cuidado e trate sempre as manchas tão rapidamente quanto possível.

Limpeza em profundidade
A limpeza profissional é ideal para tapetes/alcatifas porque toda a sujidade pode ser efetivamente removida.

Il vaut mieux prévenir
Placer un paillason à l'entrée de votre porte pour retenir et éliminer les saletés et ainsi préserver votre tapis des saletés incrustées. Tenir également en compte que dans un tapis de couleur plus foncé, la saleté et les taches seront moins visibles que dans un tapis plus clair.

Aspirer régulièrement
Pour préserver la beauté de vos tapis pendant longtemps, nous vous conseillons de l'aspirer intégralement au moins deux fois par semaine. Les marques et les taches de salissures légères peuvent être supprimées avec un produit de nettoyage de tapis et ne pas oublier de traiter les taches le plus rapidement possible. Bien lire les instructions d'utilisation du produit de nettoyage ainsi que les symboles d'entretien indiqués dans l'étiquette qui se trouve sous le tapis.

Nettoyage en profondeur
Un nettoyage professionnel est la solution idéale pour vos tapis et moquettes car toutes salissures seront efficacement enlevées.

Lo mejor es prevenir
Coloque un felpudo delante de la puerta de entrada para evitar que la suciedad exterior llegue a la alfombra. Tenga también en cuenta que una alfombra oscura no mostrará la suciedad y las manchas tanto como una alfombra clara.

Mantenimiento diario
Un programa de mantenimiento sistemático bastará para prolongar la vida de su alfombra. La base del mantenimiento de sus alfombras es pasar la aspiradora.

Aspire con regularidad
Para conservar la belleza de sus alfombras por mucho tiempo, le recomendamos que aspire toda la superficie al menos dos veces por semana. Las marcas de suciedad ligeras y las manchas pueden eliminarse con un limpiador de alfombras. Lea atentamente las instrucciones y trate siempre las manchas lo antes posible.

Limpieza a fondo
La limpieza profesional es ideal para las alfombras/moquetas porque permite eliminar eficazmente toda la suciedad.

Prevention is better
Place mats in front of the house door to trap the dirt. This will stop outside dirt from getting onto your carpet. Also bear in mind that a dark carpet won't show dirt and stains as much as a light carpet will.

Vacuum regularly
To preserve your carpets beauty and appearance for a long time, we recommend that you vacuum the whole carpet area at least twice a week. Slight dirty marks and stains can best be removed with a carpet cleaning product. Read the instructions for use carefully and always treat stains as quickly as possible.

Factory cleaning
Professional factory cleaning is ideal for rugs and carpet squares because all the dirt can be effectively removed.

Manutenção | Informação

Um tapete em Pele é um produto exclusivo e de carácter único. Contudo, requer cuidados especiais, não sendo por isso recomendada a sua utilização e, áreas de uso intensivo , facto que poderá danificar a peça de forma definitiva.

As peles devem ser apenas aspiradas e escovadas com escova de cerdas macias, em movimentos regulares e no sentido do pêlo, de forma a manter as mesmas limpas de pó e sujidade. Também poderá ser utilizado um pano levemente humedecido numa solução de água e sabão para a remoção de sujidade mais entranhada. Para uma manutenção regular, utilizar a mesma técnica, mas apenas com água e um pouco de vinagre, que ajudará a manter o pêlo com aspecto mais brilhante devido a regularização do PH.

Alguns conselhos de utilização e manutenção:

- Nunca lavar a pele, nem molhá-la na totalidade.
- Nunca escovar as peles estampadas.
- Nunca usar álcool ou solvente para lipeza da pele.
- Evitar a exposição ao sol e/ou luzes muito intensas.
- Evitar colocar a pele em locais sujos ou de elevado grau de humidade.
- Evitar limpar a pele com materiais abrasivos, como escovas decerdas duras ou esponjas abrasivas.
- Evitar limpar a pele com equipamentos de limpeza a vapor.

A garantia não abrange o desgaste causado pelo uso normal, cortes ou danos causados acidentalmente ou indirectos, uso doloso ou negligente, ou limpeza com produtos ou métodos impróprios.

Maintenance | Information

A leather rug is an exclusive and unique product. It requires special care, and is not recommended to be placed in areas of intensive use, which can damage the product permanently.

The hides should only be vacuumed and brushed with a soft bristle brush, with regular movements following the direction of the hair, to keep them clean from dust and dirt. A slightly dampened cloth, in water and mild soap, can also be used to remove any dirt that is more ingrained. For regular maintenance, use this same technique with a mixture of water and a little vinegar, which keeps the hair of the hide clean and shiny, due to the regularization of its PH.

Some additional advice for use and maintenance:

- Never wash the skin or wet it entirely.
- Never brush the hides which have printed motifs.
- Never use alcohol or solvents to clean the skin.
- Avoid exposure to direct sunlight and/ or very intensive lights.
- Prevent placing the hide in dirty places or with high humidity levels.
- Do not clean your leather carpet with steam cleaning equipments.

The warranty does not cover normal wear and tear, cuts or any other damage caused accidentally or indirectly by negligent or intentional misuse, or as a consequence of cleaning with inappropriate products and methods.
