De façon à répondre à une demande pratique et d'éviter la succession de contremarques compliquées, qui reportent votre vente à plus tard, nous avons créé un système astucieux d'exposition permettant la disponibilité immédiate des modèles, en magasin, prêts à partir, selon l'envie de chaque client.

À l'aide de Kits d'abat-jours emballés dans une Boite Expo Empilable, votre client peut choisir les abat-jours sur place, et partir avec sa lampe de suite.

En exposition, il suffit de présenter une structure et de superposer les kits de chaque côté, avec plusieurs abat-jours différents.

Plus besoin de se projeter... tout est sur place!

Comment composer sa lampe?
